

# INVISIBLE HAND

Study Guide

9 . 10 . 11  
OCTOBER

## Introduction

The Invisible Hand is a surprise, live-action business simulation where a delegation must build and manage a company inside a constantly changing market. Across two rounds, delegates will make real-time decisions involving pricing, resources, competition and expansion while responding to unexpected market developments. There are no traditional presentations or pitches. Success depends on strategic decision-making, financial awareness, adaptability and the ability to react under pressure.

Delegate Cap: 2-3 per team

Rounds: 2

Format: 4 quarters per round

### Important:

**This category will be announced on the day of the event. Every Delegation is to nominate one team. Only one team from each delegation may participate. The exact simulation mechanics, market conditions and challenges will be revealed when the category begins.**
